P R O F I L E

I'm a Computer Science Engineering student skilled in frontend and backend development using React, Next.js, Node.js, and MongoDB. I enjoy building responsive, user-friendly web apps and thrive in fast-paced, collaborative environments. Always eager to learn and create impactful solutions.

E D U C A T I O N

Hindustan Institute of Technology and Science   2023-2027
B Tech CSE   CGPA: 8.55

Sri Sankara Matriculation Higher Secondary School   2022-2023
XII   Percentage - 81.6

I N T E R N S H I P

WEB DEVELOPMENT

Plasmid Innovations   Aug 1st 2024 to Oct 1st 2024

- Gained practical web development experience by building responsive applications using HTML, CSS, JavaScript, and Bootstrap. Developed projects like a calculator and form validation system, enhancing front-end skills and user interface design abilities.

CYBER SECURITY

Edunet Foundation 15th Jan 2025 to 26th Feb 2025

- Learned the basics of cybersecurity, including how to detect threats and manage risks. Gained experience in protecting networks, using security tools, and understanding ethical hacking. Improved problem-solving and thinking skills in this field.

P R O J E C T S

RESUME BUILDER | HTML CSS AND JAVASCRIPT

Built a Resume Builder website using HTML, CSS, JavaScript, and Bootstrap with a responsive, user-friendly design.
 Enhanced my front-end development skills, focusing on form handling and dynamic content generation.

NETFLIX CLONE | VITE REACT-JS NODE-JS JAVASCRIPT(JSX)

I created a Netflix Clone using React.js, Vite, JavaScript, HTML, and CSS. This project improved my skills in building responsive UIs, managing components, and implementing smooth navigation.

AI FINANCE TRACKER | NEXT.JS | TAILWIND CSS | PRISMA ORM | GOOGLE GEMINI API

Built an AI Finance Tracker using Next.js, Prisma, Clerk, and Inngest, featuring manual/scan expense entry, budget tracking, alerts, and visual charts.
 Enhanced my skills in full-stack development, authentication, and data visualization through this project.
